

STILL RED — a boutique brand agency shaping clear, credible identities for growing businesses.

STILL RED is a boutique brand studio focused on clarity, structure and credibility.
We work with founders, studios and growing businesses that have outgrown “just design” and need a coherent visual identity that reflects who they really are. Our work starts inside the brand — its values, tone and intent — and translates them into identity systems, websites and digital presence that feel grounded, confident and intentional.

No noise. No decoration for the sake of trends.
Only what supports meaning, trust and long-term perception.
